

Standing for "design, architecture, identification," 15-year-old dai Zürich creates integrated, human-friendly workspaces by balancing Swiss precision with Italian craftsmanship. Founder Florin Baeriswyl is at the heart of the company's vision, designing high-quality seating solutions that are versatile and affordable.

ENCORE FOLDING CHAIR AND TROLLEY

Designer: Florin Baeriswyl for dai Zürich

Materials: **Encore Folding Chair,** Painted tubular steel frame; polypropylene seat and back. **Encore Chair Trolley,** Painted tubular steel frame; rubber casters.

The Encore Folding Chair and Trolley are a complete solution for spaces in need of convenient, easily stored seating. The chair's tubular steel frame has no exposed or rough edges. A scratchproof polypropylene seat is contoured to the body's curves with a waterfall seat edge for comfort. The legs are beveled for stability and include uniquely shaped plastic glides to protect floors.

Trolley has large rubber casters and holds 20 folded chairs. Made in Italy.

WERK SWIVEL TASK CHAIR

Designer: Florin Baeriswyl for dai Zürich

Materials: Matte chromed tubular steel frame; black-lacquered plywood; rubber wheels.

There are numerous contract-quality office chairs on the market, but few at the price of the Werk Swivel Chair. Height adjustable, it features a convenient lever under the seat to raise and lower the chair. Its durable tubular steel frame features an elegant matte chrome finish that requires expert skill to produce. The gently molded seat and back support the body while maintaining a light scale; the seatback tilts as you lean back. The seat has a waterfall edge to promote circulation during extended periods of sitting. Visible industrial hardware makes for crisp detail. Rubber armrests provide comfortable contact. The stable 5-star base features rubber double casters for quiet mobility. Suitable for contract use. Requires simple assembly. Made in Italy.

PILA STACKING STOOLS

RIANO PRODEA

COUNTER STOOL

BARSTOOL

Designer: Florin Baeriswyl for dai Zürich

Materials: Black-lacquered beech plywood seat and back; matte chromed steel frame.

Sleek, stackable, contract-quality stools are hard to find. They require an added dose of design problem solving to get their long-legged frames to neatly stack. The refined Pila Stacking Counter Stool and Barstool do just that, having been smartly engineered for compact storage. The legs have a wide footprint for stability and include dual crossbars that double as footrests. Gently contoured plywood seats and low backs support the sitter. Rubber bumpers on the underside of each seat prevent scuffing or marking when stacked. Stacks up to three high. Made in Italy.

Pila Stacking Counter Stool: AU2639 \$265

Pila Stacking Barstool: AU2640 \$275

AZIE RESTAURANT

PRO SWIVEL STOOL

- Natural
- Coffee

Designer: Florin Baeriswyl for dai Zürich

Materials: Matte-finish chromed steel; plywood seat with natural or coffee-stained beech veneer; soft rubber wheels.

The Pro Swivel Stool (2002) is a good-looking workhorse with a height-adjustable design that makes multitasking easier. Gas activated, it can quickly go from chair height to counter height, for drafting or workshop tasks. A convenient lever under the seat raises and lowers the stool. The plywood seat is contoured with a circular indentation for comfort. A wide 5-star base provides stability. Soft rubber double casters glide smoothly over hard floors and lock when weight is placed on the stool.

Made in Italy.
